

The Mundum Token is independently issued by MUN LTD, based outside Switzerland. The Mundum Token can be used within the Mundum® Universe as a voucher/benefit voucher (if the respective service providers accept them as such) or as a means of payment, and can be staked on the Mundum platform.

This Mundum Token should not be understood as an access token to the Mundum platform, as all persons can register on the Mundum SuperApp without a token and use the platform.

MUN LTD is – like other service providers in the Mundum® Universe – independent of Mundum AG, and there is no personal, organizational, or economic inter-connection between Mundum AG and MUN LTD.

Mundum® community believes in positive power of actions delivering results

- Vision & Motivation
- Social Financial Activism
- Community Building
- Eco System

Charity, Online Market Size, Type of Device

Global NGOs and Charitable Organizations Market

Market forecast to grow a CAGR of 6.9%

Online giving is up 10.6% so far April 2018

Change in share of transactions by device 2016 - 2017

IS THE CREATION OF A UNIVERSE OF SOCIAL CHARITY

This Universe will deliver a complete eco-system whose primary goal is to allocate funds to finance charities.

Corruption in charity fund raising campaigns

Reach of the funds to the intended recipients

Speed of execution and deployment of charity fund raising activities

Mundum® Universe Solution has many key elements to deliver of the vision established by the founders.

The key elements of the architecture solution include:

- Blockchain
- Gamification, NFTs and Metaverse
- Wallet and Payments Systems
- Revenue Generation System
- Directly Delivery of Charity
- New Blockchain
 - a) Charity DAO
 - b) Proof of Charity

Key Elements

1. Decentralization
2. Smart Contract Operational Rules
3. Multichain Tokens (ERC20, Governance, NFT)
4. Debit Card Integration
5. DeFi Passive Revenue Generation
6. Transparency
7. Immutability
8. Low NFT transaction fees
9. High Transaction throughput
10. Integration Play to Earn Game

Key Elements

- Blockchain
- DAO
- NFT
 - a) Water
 - b) Air
 - c) Fire
 - d) Earth

- Gamification (delivers Gaming and play to earn game returns)
- Integration into NFTs (Non-Fungible Tokens will enable both real asset tokenization and digital assets)
- And later Metaverse integration (delivers full immersive experiences and integrates both NFT and gamification)

"staking mechanism provides both returns for the community as well as for the Charity organization of choice"

- NFTs
- Real World Events
- Shopping in the Metaverse
- Play to Earn Games

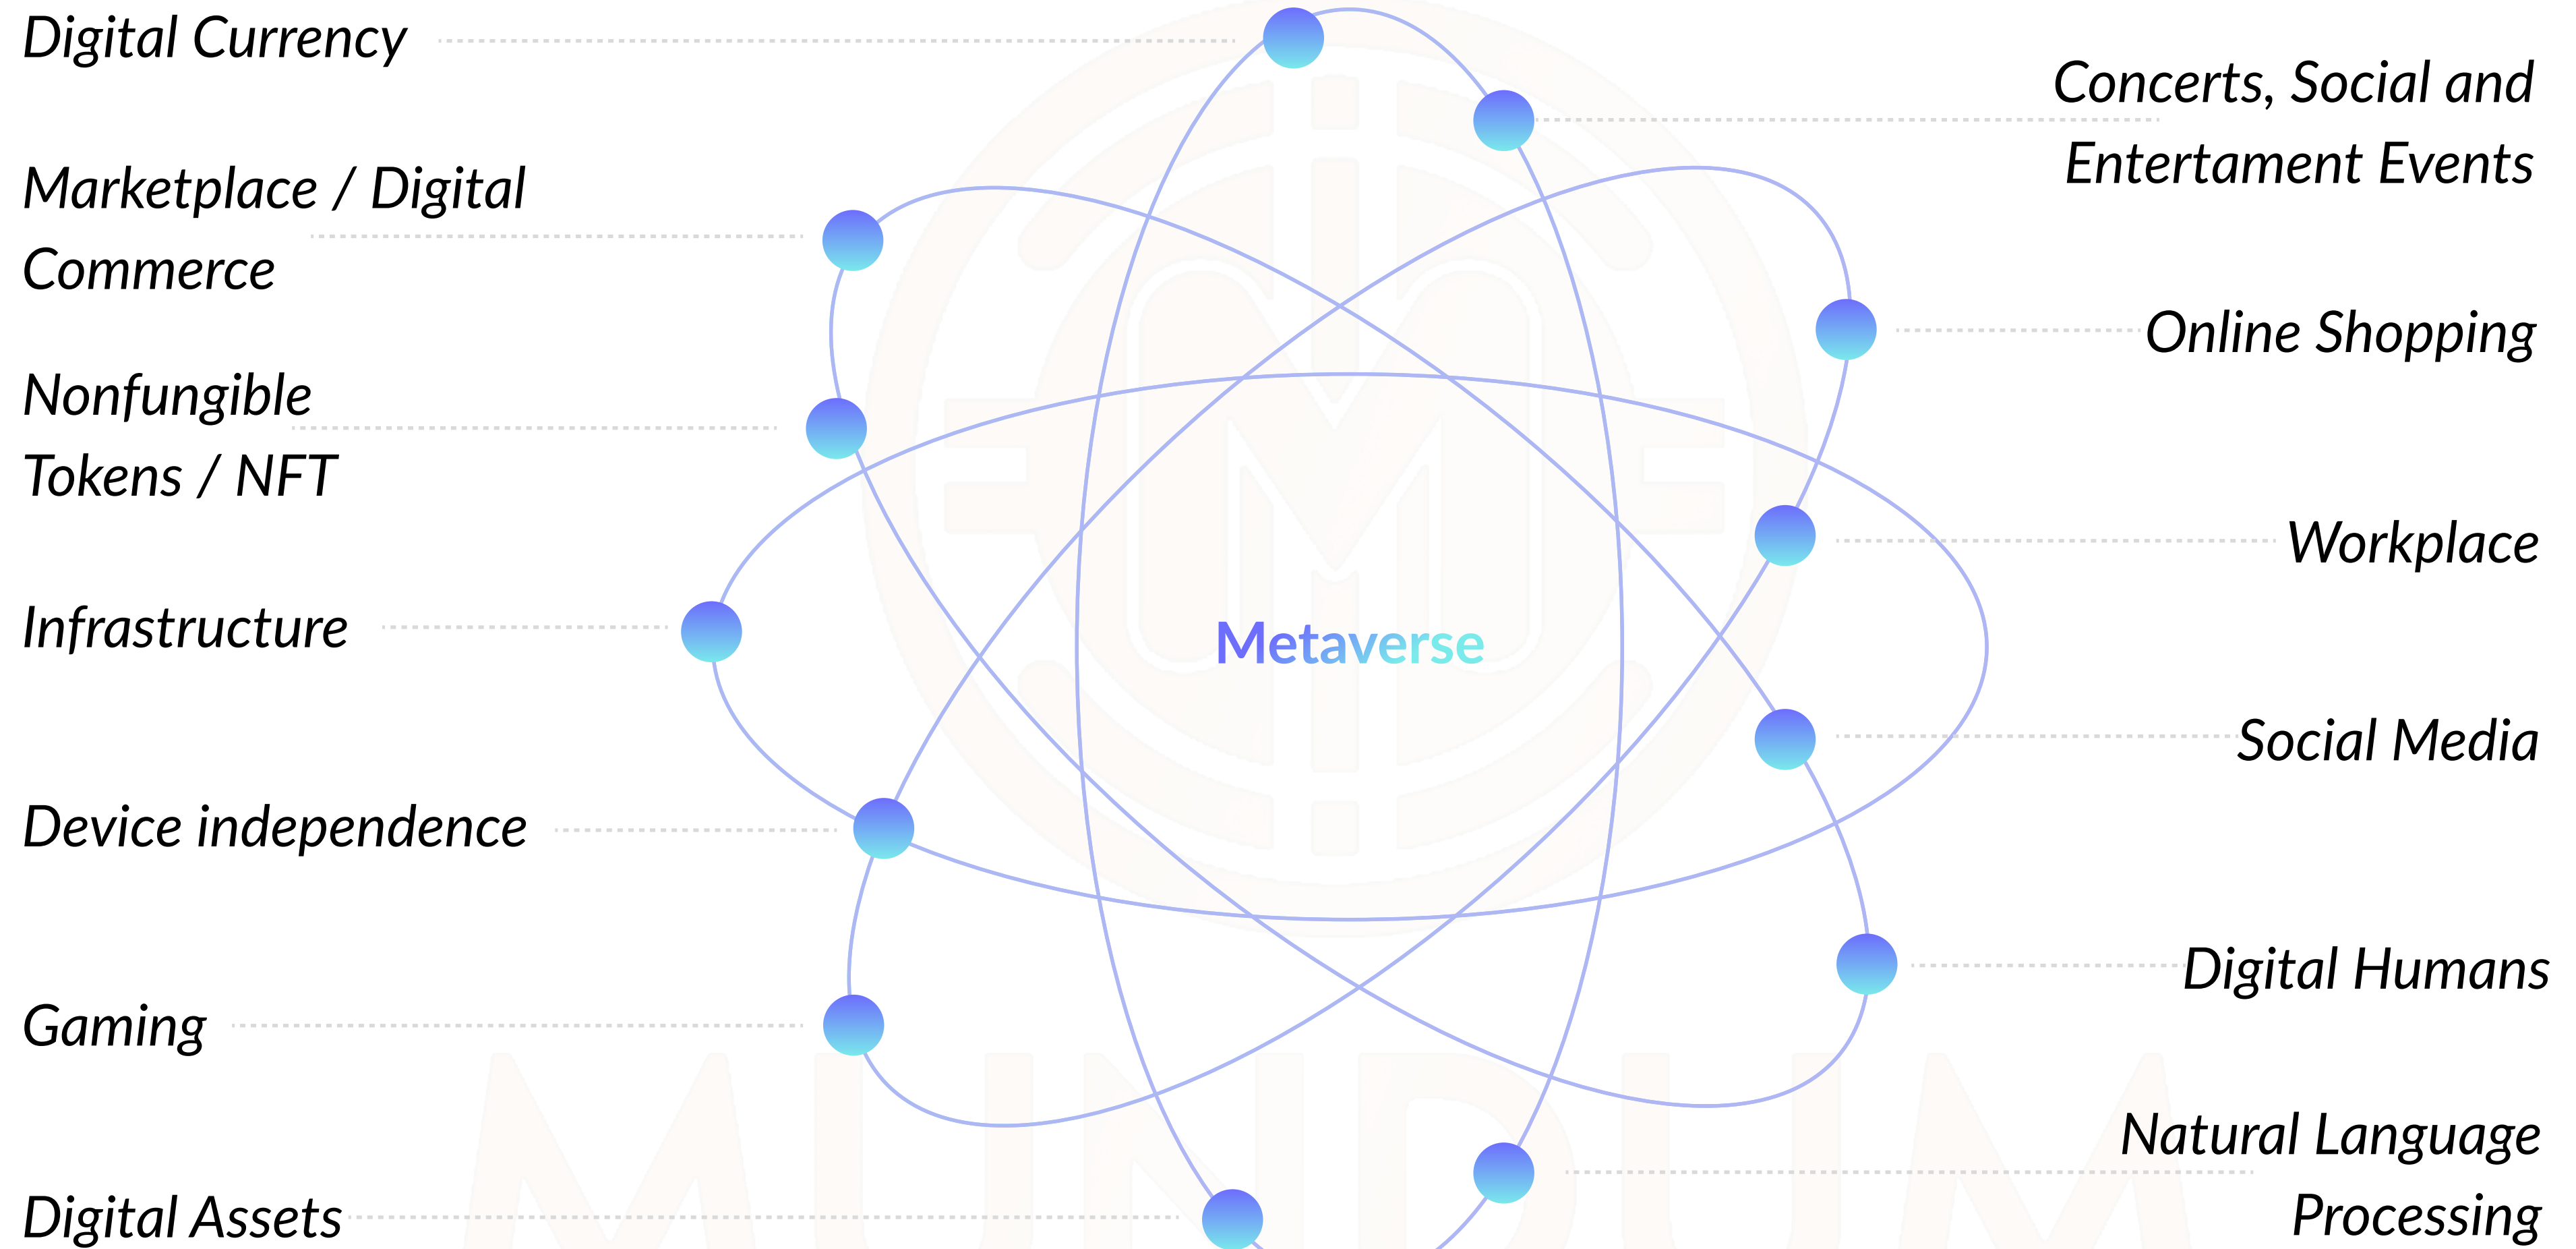

Digital wallet will also serve as the integration into the traditional banking system.

Branded payment cards highly visible, establish BRAND on a global basis.
